Subject: Response regarding Household Projections

Dear Jemma,

With reference to your email to the Inspector on Tuesday 11th December regarding your query on the outstanding work on household projections.

The Inspector would like to thank the Council for the information in relation to his request, it was not his intention to require significant further work at this stage of the examination. On this basis, please be advised that the Inspector would simply like to know what the difference is between the 2014 household projections and the 2016 household projections are for Breckland.

Kind Regards

Charlotte Brennan
Programme Officer
