Its ranking for the number of residents in very bad health is 5 (out of 27 Wards) within Breckland.

This chart shows the percentage of people in Lincoln ward who reported their general health as very good, good, fair, bad or very bad in the 2011 census. The percentage of people in Lincoln reporting their health as bad or very bad is 5.1%, or [271](#) people. This includes [223](#) people who report their health as bad, and [48](#) people who report their health as very bad. This compares with 5.5% for the Breckland District, and 5.6% in Norfolk reporting their general health as bad or very bad.

### Lincoln and Breckland

source: Census 2011

This chart shows the percentage of people in Lincoln Ward who reported that their day to day activities are limited by a long term illness or disability. The percentage of people in Lincoln reporting their day to day activities as limited a lot is 8.5% (454 people). In addition, 11.6% (620 people) reported that their activities were limited a little. This is 20.2 per cent of the population of Lincoln who say that their day to day activities are limited due to their health, affecting 1,074 people. This compares with 19.7% for the Breckland District reporting their day to day activities are limited a little or a lot by their health.

**Percentage of usual residents whose - Day-to-day activities limited a little (%) (2011) and Percentage of usual residents whose - Day-to-day activities limited a lot (%) (2011) for Lincoln, Breckland, Norfolk, East of England and England**

## Care provision

The chart below shows the proportion of the residents in ward who provide care, compared with Breckland as a whole. Lincoln is ranked number 16 for percentage of population providing 1 or more hours of unpaid care per week in Breckland, with Ashill, Guiltcross ward having the highest percentage of residents providing unpaid care and Thetford Castle providing the lowest. This could be as a result of greater need for care or less access to paid care services.

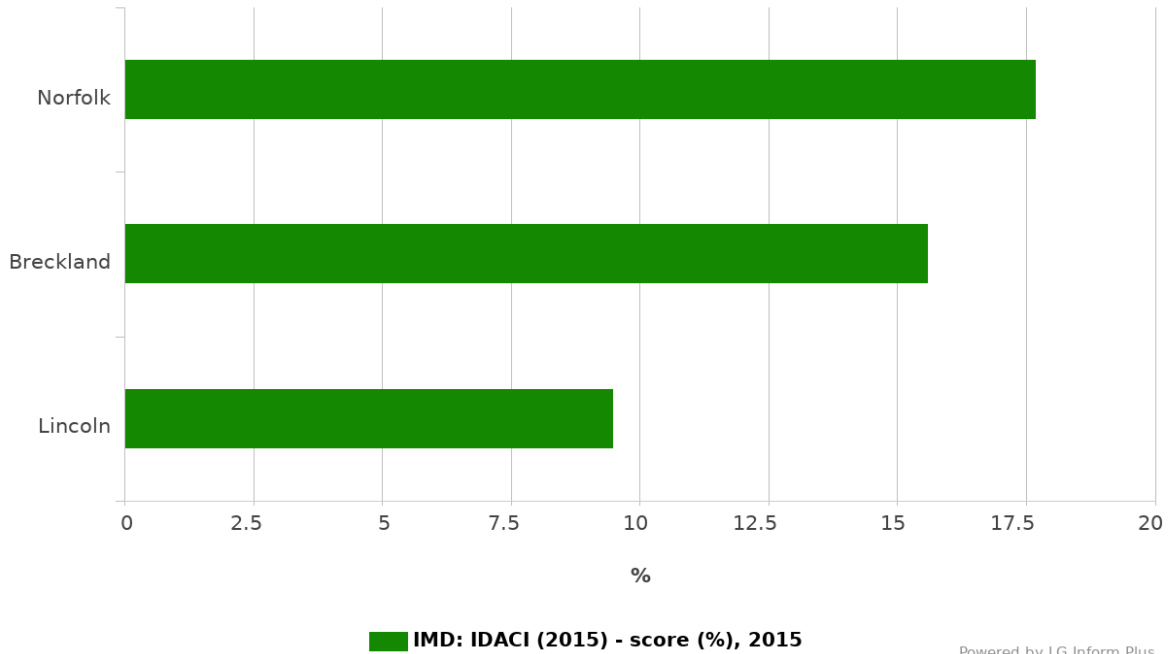

## Children living in poverty

The next chart shows the percentage of children aged 0 - 15 living in families that are income deprived. That includes families in receipt of income support, income based jobseeker's allowance or pension credit, or those not in receipt of these benefits but in receipt of Child Tax Credit with an equivalised income (excluding housing benefits) below 60% of the national median before housing costs. The percentage of children

living in poverty in Breckland is 15.6% . Within Breckland this varies from 28.3% in Thetford Burrell to 7.2% in Guiltcross . This compares with 17.7% for Norfolk.

## Percentage of children living in poverty

**IMD - Income Deprivation Affecting Children Index (IDACI) (2015) - score (%) (2015)**  
**for Lincoln, Breckland, Norfolk, Norfolk and East of England**  
 source: Indices of deprivation

## Older people living in poverty

The Income Deprivation Affecting Older People Index (IDAOPI) is a subset of the Income Deprivation Domain. This indicator shows the percentage of the population aged 60 and over who receive income support, income based job seekers allowance, pension credit or child tax credit. The percentage of older people living in poverty in Breckland is 13.0%. Within Breckland this varies from 21.0% in Thetford Burrell to 7.0% per cent in Harling & Heathlands. This compares with 14.1% for Norfolk.

## Percentage of older people living in poverty

IMD - Income Deprivation Affecting Older People Index (IDAOPI) (2015) - score (%) (%)

## Corporate Priority - 'Your opportunity'

This section presents information about the local economy of Lincoln Ward. It covers the information about the areas businesses, employment, skill levels and transport.

## Employment

The following chart provides a breakdown of the Lincoln Ward by socio-economic classification for all residents aged 16 - 74.

The National Statistics Socio-economic Classification (NS-SEC) provides an indication of socio-economic position based on occupation. It is an Office for National Statistics standard classification. To assign a person aged 16 to 74 to an NS-SEC category their occupation title is combined with information about their employment status, whether they are employed or self-employed, and whether or not they supervise other employees. Full-time students are recorded in the ' full-time students' category regardless of whether they are economically active or not.

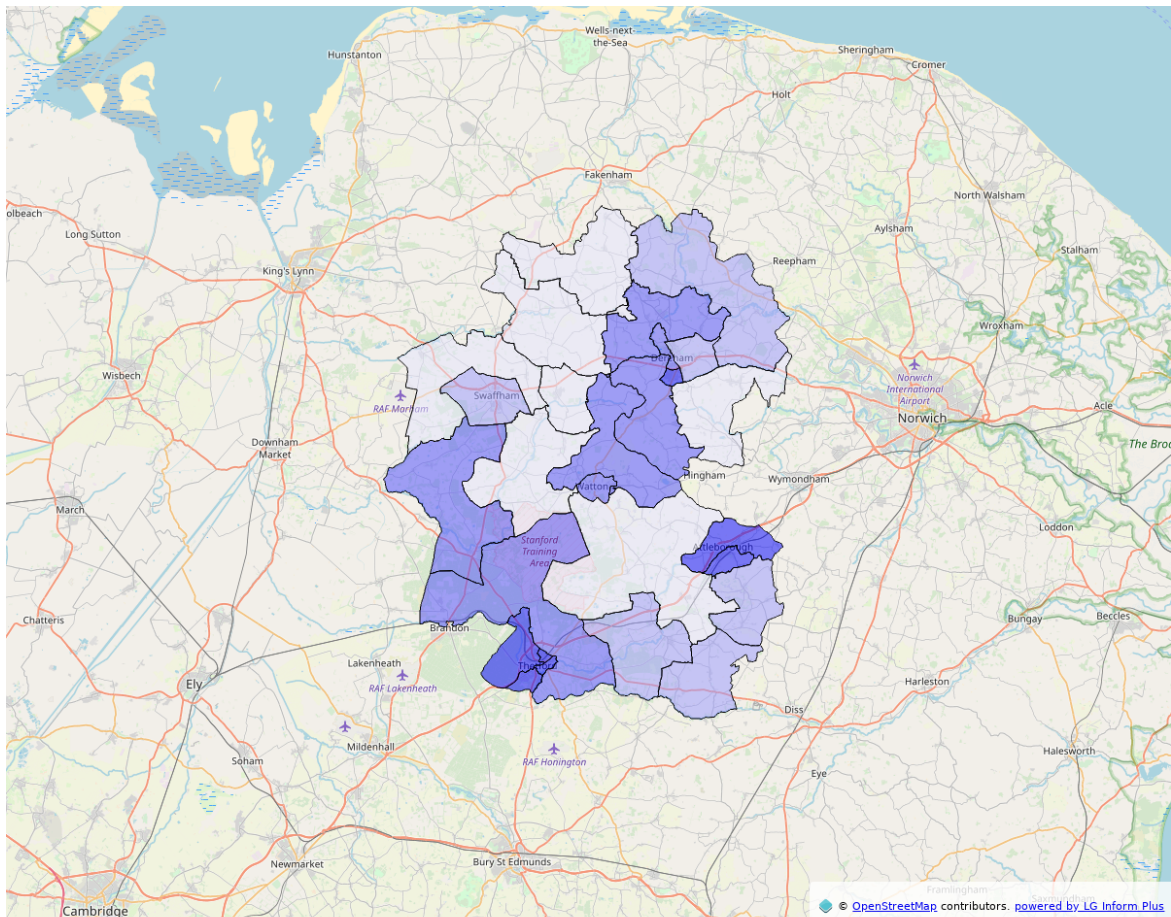

Powered by LG Inform Plus

The largest group is 'National Statistics Socio-Economic Classification - 2. Lower managerial, administrative and professional occupations' representing 21.92% of the Ward's population.

**% of the working age population claiming out of work benefit (monthly average) (%)  
 (from 2015/16 to 2016/17) for Lincoln, Breckland, Norfolk, East of England and England**  
 source: Local Health

## Full-time vs part-time contracts

### Employee: Full time (%) (2011)

- $\geq 40.85 \leq 51.93$  %
- $\geq 36.69 < 40.85$  %
- $\geq 33.61 < 36.69$  %
- $\geq 30.28 < 33.61$  %

The map above demonstrates the proportion of ward population full time employment across Breckland based on data from the 2011 Census. While not a perfect indicator of stable employment (full time work may well be fixed term or permanent), it is a proxy measure for the lifestyle of residents and the prevailing economic conditions within Breckland's wards. Lincoln is ranked number 11 in the district in terms of percent of population in full-time employment with [38.90%](#). Across Breckland, Thetford Castle has the highest proportion and Necton having the lowest.

However, the areas where the percentage of full time employment are low do not necessarily correspond with areas where the percentage of part time employment is high. Higher proportions of part time employees are, again, not an exact indicator of personal economic insecurity - residents may chose to work part time for childcare purposes, or be semi-retired. What this does show us is whether there is diverse employment within any given ward, where both full and part time employment are available. Lincoln is ranked number 16 in the district for percentage of residents in part time employment with [14.60](#). The wards with the highest and lowest proportion of residents in part time employment are Dereham Withburga and Thetford Castle respectively. The map below illustrates the proportional distribution of part time employment across Breckland.

**Employee: Part time (%) (2011)**

- $\geq 15.20 \leq 17.26 \%$
- $\geq 14.29 < 15.20 \%$
- $\geq 13.89 < 14.29 \%$
- $\geq 12.86 < 13.89 \%$

## Indices of Deprivation

Deprivation covers a broad range of issues and refers to unmet needs caused by a lack of resources of all kinds, not just financial. The English Indices of Deprivation attempt to measure a broader concept of multiple deprivation, made up of several distinct dimensions, or domains, of deprivation. The chart below shows the Index of Multiple Deprivation (IMD) relating to Income Deprivation Affecting Children (IDACI) and Income Deprivation Affecting Older People (IDAOPI) as a percentage. These two indices represent the proportion of children aged 0-15 living in income deprived households and the proportion of older people aged 60 and over living in income deprived households respectively.

**IMD - Income Deprivation Affecting Children Index (IDACI) (2010) - per cent (%) (2010) and IMD - Income Deprivation Affecting Older People Index (IDAOPI) (2010) - per cent (%) (2010) for Lincoln, Breckland and Norfolk**

## Education

21.26% of Lincoln 's residents have achieved level 4 qualifications and above compared to 25.70% in East of England as a whole and 23.71% of Lincoln 's residents have no qualifications compared to 22.50% in East of England .

The map below shows the areas which where there are high levels of people with no qualifications

**No qualifications (%) (2011)**

- $\geq 31.15 \leq 35.12$  %
- $\geq 27.92 < 31.15$  %
- $\geq 24.68 < 27.92$  %
- $\geq 22.11 < 24.68$  %

The percentage of children gaining 5 or more A\* to C grades at GCSE (including English and Maths) in Lincoln is 53.0%. This compares with 53.3% for Breckland, 57.0% for the East of England region, and 56.6% for England. Within Breckland, Shipdham-with-Scarning has the highest level of attainment at GCSE, with an attainment rate of 88.1 per cent. Ashill has the lowest level of attainment at GCSE, with an attainment rate of 18.0 per cent.

**% of pupils achieving 5 or more GCSEs grades A\* to C including English and Maths (sourced from MSOA level data) (%) for Lincoln, Breckland, Norfolk, East of England and England**

■ GCSE achievement (5A\*-C inc Eng & Maths) (from MSOA data), 2013/14 (academic) Powered by LG Inform Plus

## Transport

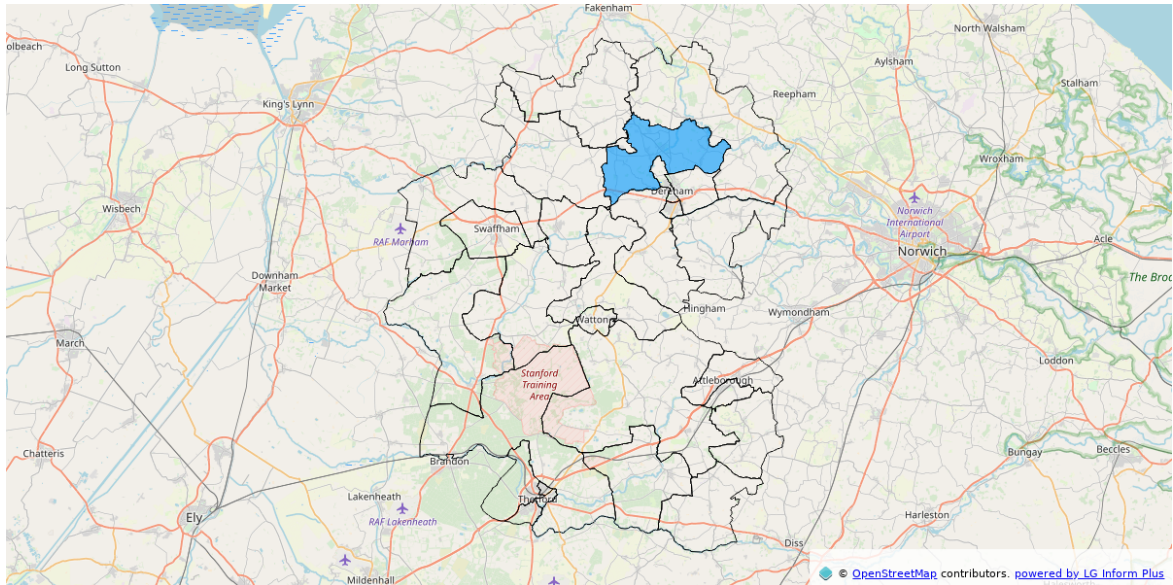

In a rural area such as Breckland, access to a vehicle can be important lifeline - while households in possession of several may be an approximate measure for relative affluence. Lincoln ward is ranked 15 among the wards of Breckland for car or van ownership, the chart below demonstrates the breakdown of cars owned in the ward and the average across the district:

**Households by car or van ownership (%) (Percentage of ONS household count) (2011) for Lincoln and Breckland**  
source: Census 2011

## Corporate Priority - Your Place

This section presents information about the place that is Lincoln Ward. It covers the geographical area, population density, housing analysis and the local environment.

Lincoln is one of the 27 Wards of Breckland. It has an area of 5,258 hectares which represents [4.03%](#) of the total area of Breckland District.

## Population Density

## Income deprivation

This is the % of people living in in low income families reliant on means tested benefits. It is the income domain score for the Indices of Multiple Deprivation (IMD) 2015 and is a measure of deprivation in the area. The difference in deprivation between areas is a major determinant of inequality in the UK. Many studies and analyses have demonstrated the association of increasingly poor health with increasing deprivation. For instance, all cause mortality, smoking prevalence, self-reported long standing illness are all correlated with deprivation. If deprivation inequalities decrease, health inequalities are likely to decrease also and can help reduce pressure on some council services.

The % of people living in low income families in Lincoln is {ERROR: Please specify a metric type} . Within Breckland it totals {ERROR: Please specify a metric type} and varies throughout the district from {ERROR: Please specify a metric type} people in no value to no value people in no value.

**IMD - Income Deprivation (2015) - score (%) (%) for Lincoln and Breckland**

## Barriers to Housing and Services

Barriers to Housing and Services consists of two sub-domains: 1) 'geographical barriers' which measures accessibility of shops, GPs, schools and Post Offices and 2) 'wider barriers' which includes issues relating to access to affordable housing.

The map shows deprivation by rank (1 - 32,482) with the higher ranks indicating areas that are less deprived and the lower ranks showing the more deprived areas in relation to barriers to housing and services.

## **Digital Exclusion**

Digital exclusion is the exclusion from accessing goods and services online, it is strongly linked to those with low income and poor health and causes further disadvantage.

The barriers around digital exclusion include:

Connectivity - access to the internet.

Accessibility - meeting all users' needs, including those dependent on assistive technology.

Digital skills - ability to use computers and the internet.

Digital inclusion is about reducing exclusion, making sure that people are able to use the internet in order to access services that can benefit them day to day – this is vital for both individuals and organisations.

The map below shows the likelihood of digital exclusion within the district, with decile 1 meaning there is a high probability for digital exclusion and decile 10 showing a low probability.

**2009**

- Digital exclusion dec. 1 per cent    ■ Digital exclusion dec. 2 per cent
- Digital exclusion dec. 3 per cent    ■ Digital exclusion dec. 4 per cent
- Digital exclusion dec. 5 per cent    ■ Digital exclusion dec. 6 per cent
- Digital exclusion dec. 7 per cent    ■ Digital exclusion dec. 9 per cent
- Digital exclusion dec. 10 per cent

As a comparison, this map shows the attitude to using the web ranked 1-10 with the most negative attitudes rated as 1. Looking at the two maps, you can see that despite a high probability for exclusion, attitudes to using the web remain quite positive.

**2009**

- Web index 2 per cent
- Web index 3 per cent
- Web index 4 per cent
- Web index 5 per cent
- Web index 6 per cent
- Web index 7 per cent
- Web index 8 per cent
- Web index 9 per cent
- Web index 10 per cent
