Further Comments Of People ...

Car Parking Fees

"fees will annoy people"

"fees do not help"

"fees wont make a difference, there's not enough space"

Effect on business

"charges would kill business"

"charging would deter people from coming"

"charges will lose trade"

Public transport

"need good public buses"

"need better public transport"

Further Comments Of People...

"parking should increase as houses are built"

Need more space

"just need more spaces"

"bays should be introduced"

"station needs resurfacing"

Railway car parking

"its unsafe when dark"

"unfair to charge people who work in town"

"high street parking is not safe"

Workers in town

"where will workers park if fees enforced"

"business people need to park all day"

Summary Of Survey Findings To Possible Solutions...

▸ **The majority of people agree that:**

- Attleborough needs more town centre car parking space
- Pay and Display parking will ease traffic congestion
- Supermarket car parking should be regulated through ticket validation
- Railway car parking capacity & safety needs to be improved

▸ **The majority of people disagree that:**

- Car parking charges, permit parking, a park and ride scheme or a car sharing scheme will ease traffic congestion
- Attleborough needs a multi-storey car park

N.B. In some cases, the 'majority' view is quite slim.

Suggestions/Solutions
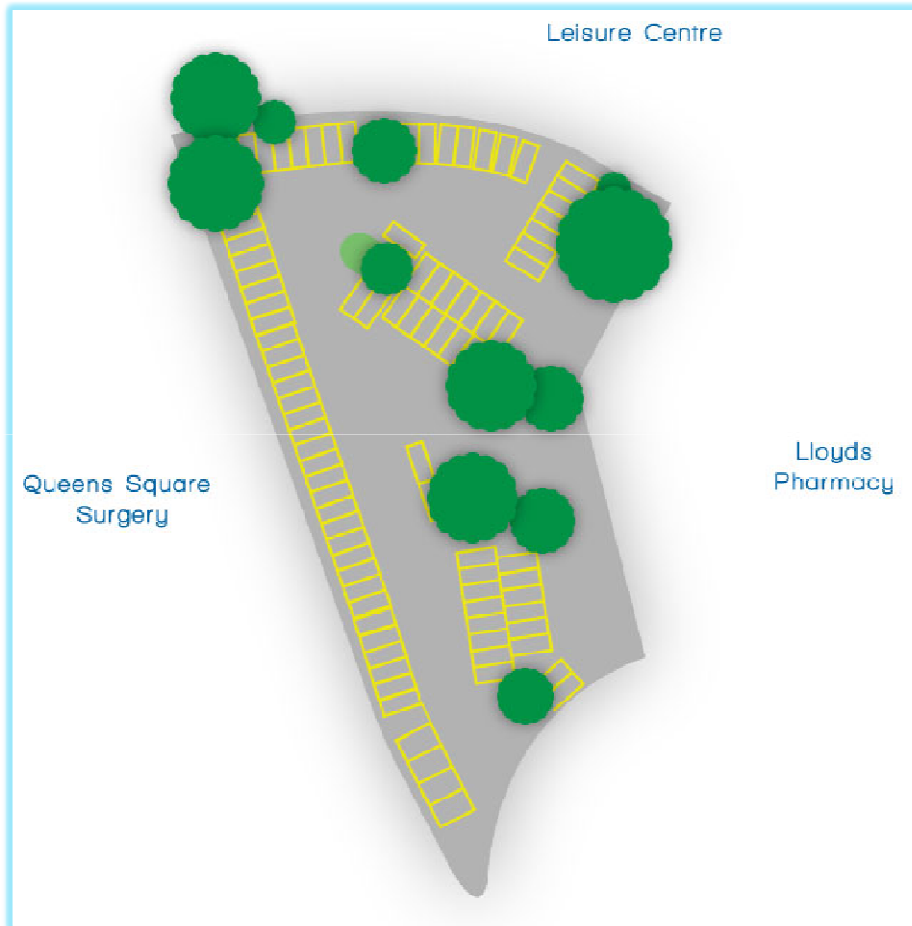

1. Redesign Of Current Car Parks

Aim

▸ Increase the amount of car parking spaces in Attleborough town centre

Implementation
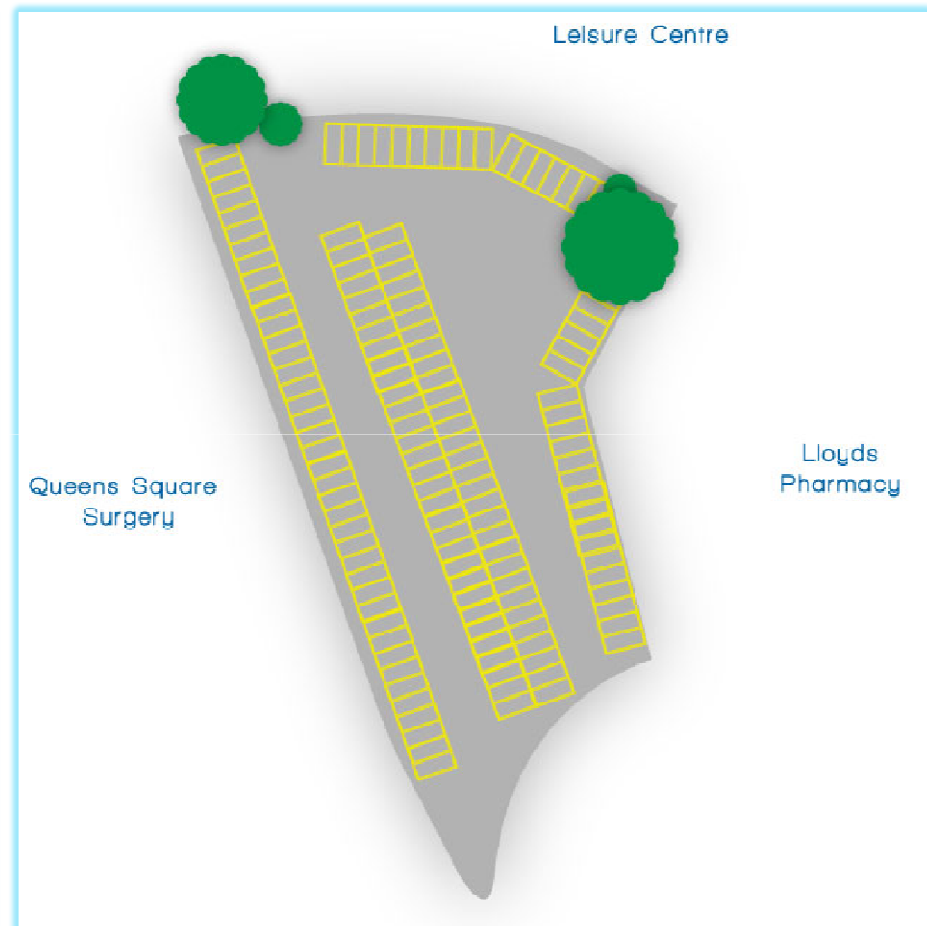

▸ Re-plan bay allocation to maximise utilisation of space

1. Redesign Of Current Car Parks

Existing: Redesigned:

1. Redesign Of Current Car Parks

Advantages

▸ Approximately 20% more spaces

▸ Cost effective

▸ Relatively easy to implement

▸ Supports what people have requested

Disadvantages

▸ Environmental implications of tree felling

▸ Overall how much difference will it make?

2. Short Stay/Long Stay Car Parks

Aim

▸ To make car parking spaces more readily available throughout the day

Implementation

▸ Designate specific short term car park/s where people are limited to 2 hours free parking

▸ Designate specific long stay car parks for commuters and business users to park for more than 4 hours

UEA
University of East Anglia

2. Short Stay/Long Stay Car Parks

Advantages

▸ Increases car turnover in short stay car parks

▸ Makes it easier to find a car parking space

▸ Revenue from enforcement

Disadvantages

▸ Enforcement and start up costs

▸ May be insufficient current car parking space to implement different car parks

UEA
University of East Anglia

3. Car Park Signage

Aim

▸ Alleviate traffic congestion in town centre by navigating people away from congested car parks and to available spaces

Implementation

▸ Introduce 'variable message signs' around Attleborough town centre and main roads

UEA
University of East Anglia

3. Car Park Signage

Advantages

▸ Alleviate traffic congestion (reduces the amount of people driving around looking for spaces)

▸ Alleviates parking congestion

▸ Relatively low start up costs

Disadvantages

▸ Potential eyesore

▸ Confusion
