## AGENDA SUPPLEMENT (7) – APPENDIX D/PART 7

Dear Sir/Madam

### LOCAL PLAN WORKING GROUP - TUESDAY 29 OCTOBER 2013

I refer to the agenda for the above-mentioned meeting and enclose the following item:

Item No	Report Title	Page Nos
8.	Attleborough Link Road Study – Appendix D/Part 7  Report by Phil Mileham, Deputy Planning Manager.  Unfortunately, due to the size of Appendix D, I have had to split the document into 9 parts – this is part 7 of 9.  NB: There will be a limited number of hard copies available on the day.	519 - 640

Yours faithfully

*Julie Britton*

Senior Committee Officer

Appendix B

### Site Details

Site at Attleborough, Norwich, Norfolk

The historical maps shown were reproduced from maps predominantly held at the National Archives, England, Wales and Scotland in the 1840's. In 1854 the Ordnance Survey (OS) was established to produce a national grid. The 1:10,560 scale maps were produced for the Ordnance Survey and are used to update the 1:10,560 maps. The published date given therefore is often years later than the surveyed date. Before 1938 all OS maps were based on the Cassini Projection, with independent surveys of a single county or group of counties, giving rise to significant inaccuracies in outlying areas. In the late 1940's, a Provisional Edition was produced, which updated the 1:10,560 mapping from a number of sources. The maps appear unfinished - with all military camps and other strategic sites removed. These maps were initially overprinted with the National Grid. In 1970, the first 1:10,000 maps were produced using the Transverse Mercator Projection. The revision process continued until recently, with new editions appearing every 10 years or so for urban areas.

# 10k Raster Mapping Published 2006

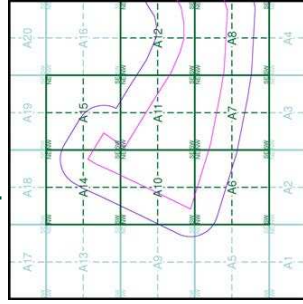

Source map scale - 1:10,000

The historical maps shown were produced from the Ordnance Survey's 1:10,000 scale raster maps from 2006. These maps are derived from the data which was used to produce the 1:10,000 scale maps published in 1970. The data is highly detailed showing buildings, fences and field boundaries as well as all roads, tracks and paths. Road names are also included together with the relevant road number and classification. Boundary information depiction includes county, unitary authority, district, civil parish and constituency.

# Large-Scale National Grid Data Published 1995

## Source map scale - 1:2,500

'Large Scale National Grid Data' superseded SIM cards (Ordnance Survey's 'Suitable for Military Use' in 1992, and 'Large Scale National Grid Data' in 1999). The information on these maps was produced using digital data from the 1995 edition of the OS National Grid. The maps provide detailed information on houses and roads, but tend to show less topographic features such as vegetation. These maps were produced at both 1:2,500 and 1:1,250 scales.

## Historical Mapping Legends

### Large-Scale National Grid Data 1:2,500 and 1:1,250

This legend defines symbols for various geographical features and structures. It includes symbols for slopes, cliffs, rock, boulders, positioned boulders, non-coniferous trees, orchard trees, coppice/osier, rough grassland, direction of water flow, triangulation stations, electricity transmission lines, pylons, buildings with seed, glazed roof buildings, and various boundary types (civil parish/community, district, county, and boundary post/stone). It also lists numerous symbols for man-made structures like barracks, batteries, cemeteries, chimneys, cisterns, dismasted railways, electricity generating stations, and various types of signal posts and pumps.

### Ordnance Survey Plan, Additional SIMs and Supply of Unpublished Survey Information 1:2,500 and 1:1,250

This legend defines symbols for features shown on Ordnance Survey plans and SIMs. It includes symbols for inactive quarries, rock, boulders, roofed buildings, sloping masonry, archways, non-coniferous trees, orchard trees, coppice/osier, rough grassland, direction of water flow, cave entrances, electricity transmission lines, county boundaries, civil parish boundaries, administrative boundaries, London Borough boundaries, and various types of buildings and structures like beer houses, boundary posts, capstans, chimneys, drinking fountains, fire alarm pillars, foot bridges, guide posts, hydrants, level crossings, manholes, mile posts, and normal tidal limits.

### Ordnance Survey County Series and Ordnance Survey Plan 1:2,500

This legend defines symbols for features shown on Ordnance Survey county series and 1:2,500 plans. It includes symbols for quarries, clay pits, sloping masonry, marsh, rough pasture, mixed wood, fir, ferry, trig stations, bench marks, surface levels, antiquities, cutting, embankment, road crossings, level crossings, railway crossings, rivers/canals, road over single streams, road over rivers/canals, county boundaries, administrative boundaries, county borough boundaries, county burgh boundaries, boundary posts, bridges, electricity pylons, foot paths, foot bridges, guide posts, mile stones, mooring posts, sand pits, refuse heaps, flat rock, osiers, wood, orchard, stepping stones, locks, altitudes at trig stations, and various types of roads and crossings.

**Source map scale - 1:2,500**

The historical maps shown were reproduced from maps predominantly held at the Ordnance Survey offices in England, Wales and Scotland in the 1940s. The 1:2,500 scale maps were produced for the purpose of the 1:50,000 scale maps published in 1986. The published date given below is often some years later than the surveyed date. Before 1933 all OS maps were based on the Cassini Projection, with independent surveys of a single county or group of counties, giving rise to significant inaccuracies in outlying areas.

# Ordnance Survey Plan Published 1972

Source map scale - 1:2,500

The historical maps shown were reproduced from maps predominantly held at the Ordnance Survey, Southampton in the 1840s and 1850s. The 1:2,500 scale of the original maps was reduced to 1:10,000 for the current edition. The whole of what was considered to be the cultivated parts of Great Britain. The published date given below is often some years later than the surveyed date. Before 1933, all OS maps were based on the Cassini Projection, with independent surveys of a single county or group of counties, giving rise to significant inaccuracies in outlying areas.

**Large-Scale National Grid Data  
Published 1995**

**Source map scale - 1:2,500**

'Large Scale National Grid Data' superseded SIM cards (Ordnance Survey's 'Suitable for Military Use') in 1992, and should not be produced after 1999. The information on these maps is derived from digital data which provide detailed information on houses and roads, but tend to show less topographic features such as vegetation. These maps were produced at both 1:2,500 and 1:1,250 scales.

## Historical Mapping Legends

### Large-Scale National Grid Data 1:2,500 and 1:1,250

This legend defines symbols for various geographical features and infrastructure. It includes symbols for slopes, cliffs, rock, boulders, positioned boulders, non-coniferous trees (surveyed and not surveyed), orchard trees, coppice/osier, rough grassland, direction of water flow, triangulation stations, electricity transmission lines, pylons, buildings with seed, glazed roof buildings, and various boundary types (civil parish/community, district, county, and boundary post/stone). It also lists symbols for masonry, roofed buildings, archways, and various types of trees and vegetation.

### Ordnance Survey Plan, Additional SIMs and Supply of Unpublished Survey Information 1:2,500 and 1:1,250

This legend defines symbols for features found in Ordnance Survey plans and unpublished surveys. It includes symbols for inactive quarries, rock, boulders, roofed buildings, sloping masonry, archways, non-coniferous trees, orchard trees, coppice/osier, rough grassland, direction of water flow, cave entrances, electricity pylons, county boundaries, civil parish boundaries, administrative boundaries, London Borough boundaries, and various types of buildings and structures like beer houses, boundary posts, chimneys, drinking fountains, fire alarm pillars, foot bridges, guide posts, hydrants, level crossings, manholes, mile posts, and normal tidal limits.

### Ordnance Survey County Series and Ordnance Survey Plan 1:2,500

This legend defines symbols for features found in Ordnance Survey county series and 1:2,500 plans. It includes symbols for quarries, clay pits, sloping masonry, marsh, rough pasture, mixed wood, fir, ferry, trig stations, bench marks, arrow denoting flow of water, cutting, railway crossing roads, level crossings, road crossings, road over single stream, road over river or canal, county boundaries, administrative boundaries, county borough boundaries, county burgh boundaries, boundary posts, bridle roads, electricity pylons, foot paths, foot bridges, guide posts, mile stones, mooring posts, and various types of pits and heaps.

## Historical Mapping Legends

### Large-Scale National Grid Data 1:2,500 and 1:1,250

	Cliff		Slopes Top
	Rock		Rock (scattered)
	Boulders		Boulders (scattered)
	Positioned Boulder		Scree
	Non-Confiferous Tree (surveyed)		Confiferous Tree (surveyed)
	Non-Confiferous Trees (not surveyed)		Confiferous Trees (not surveyed)
	Orchard Tree		Scrub
	Coppice, Osier		Reeds
	Rough Grassland		Heath
	Culvert		Triangulation Station
	Antiquity (site of)		Electricity Pylon
	Roofed Building		Bench Mark
	Glazed Roof Building		Buildings with Building Seed
	Civil parish/community boundary		District boundary
	County boundary		Boundary post/stone
	Boundary meeting symbol (note: these always appear in opposed pairs or groups of three)		

### Ordnance Survey Plan, Additional SIMs and Supply of Unpublished Survey Information 1:2,500 and 1:1,250

	Inactive Quarry, Chalk Pit or Clay Pit		Active Quarry, Chalk Pit or Clay Pit
	Rock		Boulders
	Roofed Building		Glazed Roof Building
	Sloping Masonry		Archway
	Non-Confiferous Tree (surveyed)		Confiferous Tree (surveyed)
	Non-Confiferous Trees (not surveyed)		Confiferous Trees (not surveyed)
	Orchard Tree		Scrub
	Coppice, Osier		Reeds
	Rough Grassland		Heath
	Culvert		Bench Mark
	Antiquity (site of)		Electricity Pylon
	Cave Entrance		Triangulation Station
	Electricity Transmission Line		County Boundary (Geographical)
	County & Civil Parish Boundary		Civil Parish Boundary
	Admin. County or County Bor. Boundary		London Borough Boundary
	Symbol marking point where boundary meeting changes		

### Ordnance Survey County Series and Ordnance Survey Plan 1:2,500

	Quarry		Sand Pit
	Clay Pit		Refuse Heap
	Sloping Masonry		Flat Rock
	Marsh		Osiers
	Rough Pasture		Wood
	Mixed Wood		Orchard
	Fir		Stepping Stones
	Ferry		Lock
	Trig. Station		Altitude at Trig. Station
	B.M. 325.9		Surface Level
	Arrow denotes flow of water		Antiquities (site of)
	Cutting		Embankment
	Railway crossing Road		Road crossing Railway
	Railway crossing River or Canal		Road over River or Canal
	Road over single stream		Level Crossing
	County Boundary (Geographical)		County & Civil Parish Boundary
	Administrative County & Civil Parish Boundary		County Borough Boundary (England)
	County Burgh Boundary (Scotland)		Police Call Box
	Bridle Road		Pump
	Electricity Pylon		Signal Post
	Foot Path		Sluce
	Foot Bridge		Spring
	Guide Post or Board		Telephone Call Box
	Mile Stone		Trough
	Mooring Post or Ring		Well

### Site Details

Site at Attleborough, Norwich, Norfolk

The historical maps shown were reproduced from maps predominantly held at the Ordnance Survey, Warley, Midlands and Scotland in the 1840s. The 1:2,500 scale maps were produced for the Ordnance Survey by 1854 and covered the whole of what was considered to be the cultivated parts of Great Britain. The published date given below is often some years later than the surveyed date. Before 1933 all OS maps were based on the Cassini Projection, with independent surveys of a single county or group of counties, giving rise to significant inaccuracies in outlying areas.

### Historical Mapping Legends

#### Large-Scale National Grid Data 1:2,500 and 1:1,250

This legend includes symbols for various terrain features and structures:

- Slopes:** Top (horizontal lines), Top (vertical lines).
- Cliff:** Vertical line with short dashes.
- Rock:** Irregular shapes.
- Boulders:** Small circles.
- Positioned Boulder:** Triangle.
- Non-Confiferous Tree (surveyed):** Tree symbol.
- Non-Confiferous Trees (not surveyed):** Tree symbol with a dot.
- Orchard Tree:** Tree symbol with a circle.
- Coppice, Osier:** Vertical lines with dots.
- Rough Grassland:** Dotted pattern.
- Direction of water flow:** Arrow.
- Triangulation Station:** Triangle with a circle.
- Electricity Transmission Line:** Line with cross-ticks.
- Electricity Pylon:** Square with a cross.
- Roofed Building:** Rectangle with a hatched pattern.
- Bench Mark:** Square with a cross.
- Buildings with Building Seed:** Rectangle with a hatched pattern.
- Glazed Roof Building:** Rectangle with a hatched pattern.
- Civil parish/community boundary:** Dotted line.
- District boundary:** Dashed line.
- County boundary:** Long-dashed line.
- Boundary post/stone:** Circle.
- Boundary measuring symbol:** Circle with a cross.

#### Ordnance Survey Plan, Additional SIMs and Supply of Unpublished Survey Information 1:2,500 and 1:1,250

This legend includes symbols for various terrain features and structures:

- Inactive Quarry, Chalk Pit or Clay Pit:** Irregular shape with a circle.
- Rock:** Irregular shapes.
- Boulders:** Small circles.
- Active Quarry, Chalk Pit or Clay Pit:** Irregular shape with a circle and a line.
- Roofed Building:** Rectangle with a hatched pattern.
- Sloping Masonry:** Rectangle with a hatched pattern.
- Archway:** Rectangle with a hatched pattern.
- Non-Confiferous Tree (surveyed):** Tree symbol.
- Non-Confiferous Trees (not surveyed):** Tree symbol with a dot.
- Orchard Tree:** Tree symbol with a circle.
- Coppice, Osier:** Vertical lines with dots.
- Rough Grassland:** Dotted pattern.
- Direction of water flow:** Arrow.
- Bench Mark:** Square with a cross.
- Triangulation Station:** Triangle with a circle.
- Electricity Pylon:** Square with a cross.
- County Boundary (Geographical):** Long-dashed line.
- County & Civil Parish Boundary:** Dashed line.
- Civil Parish Boundary:** Dotted line.
- Admin. County or County Bor. Boundary:** Dotted line.
- London Borough Boundary:** Dotted line.
- Symbol marking point where boundary measuring changes:** Circle with a cross.

#### Ordnance Survey County Series and Ordnance Survey Plan 1:2,500

This legend includes symbols for various terrain features and structures:

- Quarry:** Irregular shape with a circle.
- Clay Pit:** Irregular shape with a circle.
- Sloping Masonry:** Rectangle with a hatched pattern.
- Marsh:** Dotted pattern.
- Rough Pasture:** Dotted pattern.
- Mixed Wood:** Tree symbol.
- Fir:** Tree symbol.
- Ferry:** Line with a circle.
- Trig. Station:** Triangle with a circle.
- Bench Mark:** Square with a cross.
- Arrow denotes flow of water:** Arrow.
- Antiquities (site of):** Circle with a cross.
- Cutting:** Line with a hatched pattern.
- Embankment:** Line with a hatched pattern.
- Road crossing Railway:** Line with a hatched pattern.
- Level Crossing:** Line with a hatched pattern.
- Road crossing River or Canal:** Line with a hatched pattern.
- Road over single stream:** Line with a hatched pattern.
- Road over River or Canal:** Line with a hatched pattern.
- County Boundary (Geographical):** Long-dashed line.
- County & Civil Parish Boundary:** Dashed line.
- Administrative County & Civil Parish Boundary:** Dotted line.
- County Borough Boundary (England):** Dotted line.
- County Burgh Boundary (Scotland):** Dotted line.

The historical maps shown were reproduced from maps predominantly held at the Ordnance Survey, England, Wales and Scotland in the 1840-1864 period. The 1:2,500 scale maps were produced for the Ordnance Survey by 1866. It covered the whole of what was considered to be the cultivated parts of Great Britain. The published date given below is often some years later than the surveyed date. Before 1933 all OS maps were based on the Cassini Projection, with independent surveys of a single county or group of counties, giving rise to significant inaccuracies in outlying areas.

# Large-Scale National Grid Data

Published 1995

Source map scale - 1:2,500

'Large Scale National Grid Data' superseded SIM cards (Ordnance Survey's 'Source Map Information on Microfilm') in 1992, and need to be produced until 1999. The information on these cards is derived from digital topographic data and provides detailed information on houses and roads, but tend to show less topographic features such as vegetation. These maps were produced at both 1:2,500 and 1:1,250 scales.

The historical maps shown were reproduced from maps predominantly held at the Ordnance Survey, England, Wales and Scotland in the 1840's. In 1854 the 1:2,500 scale maps were reproduced for the 1:10,560 scale. These maps are used to update the 1:10,560 maps. The published date given therefore is often some years later than the surveyed date. Before 1938 all OS maps were based on the Cassini Projection, with independent surveys of a single county or group of counties, giving rise to significant inaccuracies in outlying areas. In the late 1940's, a Provisional Edition was produced, which updated the 1:10,560 mapping from a number of sources. The maps appear unfinished - with all military camps and other strategic sites removed. These maps were initially overprinted with the National Grid. In 1970, the first 1:10,000 maps were produced using the Transverse Mercator Projection. The revision process continued until recently, with new editions appearing every 10 years or so for urban areas.

# 10k Raster Mapping Published 2012

Source map scale - 1:10,000

The historical maps shown were produced from the Ordnance Survey's 1:10,000 scale raster maps from the 1970s. These maps are from the 1970s which were updated in 1970. The data is highly detailed showing buildings, fences and field boundaries, as well as all roads, tracks and paths. Road names are also included together with the relevant road number and classification. Boundary information depiction includes county, unitary authority, district, civil parish and constituency.

The historical maps shown were reproduced from maps predominantly held at the National Archives for England, Wales and Scotland in the 1840s. 1:2,500 scale maps were produced for the Ordnance Survey by 1854. The published date given below is often some years later than the surveyed date. Before 1933 all OS maps were based on the Cassini Projection, with independent surveys of a single county or group of counties, giving rise to significant inaccuracies in outlying areas.

**Large-Scale National Grid Data  
Published 1995**

**Source map scale - 1:2,500**

'Large Scale National Grid Data' superseded SIM cards (Ordnance Survey's 'Suit for Information on Maps' in 1992, and 'Suit for Digital Information on Maps' in 1999). These maps were produced using digital data to provide detailed information on houses and roads, but tend to show less topographic features such as vegetation. These maps were produced at both 1:2,500 and 1:1,250 scales.

### Historical Mapping Legends

#### Large-Scale National Grid Data 1:2,500 and 1:1,250

This legend defines symbols for various geographical features and structures. It includes symbols for slopes, cliffs, rock, boulders, trees (orchard, coppice, rough grassland, non-coniferous), directions of water flow, triangulation stations, electricity pylons, buildings (roofed, glazed), and various types of boundaries (civil parish, county, district).

#### Ordnance Survey Plan, Additional SIMs and Supply of Unpublished Survey Information 1:2,500 and 1:1,250

This legend defines symbols for features like inactive quarries, rock, boulders, roofed buildings, archways, trees, coppice, rough grassland, directions of water flow, cave entrances, and various boundaries (county, civil parish, administrative, London Borough).

#### Ordnance Survey County Series and Ordnance Survey Plan 1:2,500

This legend defines symbols for features like sand pits, refuse heaps, flat rock, marsh, rough pasture, mixed wood, fir, ferry, trig stations, bench marks, arrow denoting flow of water, cutting, embankment, road crossings, railway crossings, and various boundaries (county, administrative, county borough).

Site at Attleborough, Norwich, Norfolk

The historical maps shown were reproduced from maps predominantly held at the Ordnance Survey offices in England, Wales and Scotland in the 1840s. 1:2,500 scale maps were produced for the Ordnance Survey by 1854 and covered the whole of what were considered to be the cultivated parts of Great Britain. The published date given below is often some years later than the surveyed date. Before 1933 all OS maps were based on the Cassini Projection, with independent surveys of a single county or group of counties, giving rise to significant inaccuracies in outlying areas.

**Ordnance Survey Plan  
Published 1972**

**Source map scale - 1:2,500**

The historical maps shown were reproduced from maps predominantly held at the Ordnance Survey offices in England, Wales and Scotland in the 1840-1854 period. The 1:2,500 scale maps were produced for the purpose of the 1886 Ordnance Survey. The published date given below is often some years later than the surveyed date. Before 1933 all OS maps were based on the Cassini Projection, with independent surveys of a single county or group of counties, giving rise to significant inaccuracies in outlying areas.

'Large Scale National Grid Data' superseded SIM cards (Ordnance Survey's 'Simulation on Microfilm') in 1992, and digital data is now produced until 1999. The maps are produced from aerial photography and provide detailed information on houses and roads, but tend to show less topographic features such as vegetation. These maps were produced at both 1:2,500 and 1:1,250 scales.

### Historical Mapping Legends

#### Large-Scale National Grid Data 1:2,500 and 1:1,250

This legend defines symbols for various geographical features and infrastructure. It includes symbols for slopes, cliffs, rock, boulders, trees, orchards, coppices, rough grassland, directions of water flow, triangulation stations, electricity pylons, buildings, and various types of boundaries (civil parish, county, and boundary post/stone). A north arrow is also present.

#### Ordnance Survey Plan, Additional SIMs and Supply of Unpublished Survey Information 1:2,500 and 1:1,250

This legend defines symbols for features like inactive quarries, rock, boulders, cliffs, roofed buildings, sloping masonry, non-coniferous trees, orchards, coppices, rough grassland, directions of water flow, cave entrances, and various boundaries (county, civil parish, administrative, and London Borough). It also includes symbols for beer houses, cemeteries, chimneys, cisterns, dismanted railways, and electricity generating stations.

#### Ordnance Survey County Series and Ordnance Survey Plan 1:2,500

This legend defines symbols for features like quarries, clay pits, sloping masonry, marsh, rough pasture, mixed wood, fir, ferry, trig stations, bench marks, arrow denoting flow of water, cutting, embankment, road crossings, railway crossings, and various types of roads and rivers. It also includes symbols for county and administrative boundaries, county borough boundaries, and county burgh boundaries.
