Hi Charlotte,

As a follow up to yesterdays email, please find attached updated green infrastructure maps. Dereham Town Council commissioned these updates as part of the evidence base for its neighbourhood plan.

It honestly only took a couple of months from the decision to do it to having the finished article. If Breckland had asked we could have produced these at any time since 2013.

The only real change from the 2008 study is that our eastern green corridor is now a county strategic green corridor.

Best wishes

Tony
Dereham Town Council
