For the attention of the Inspector,

I understand that Mr Needham has raised concerns with regard to Matter 12 and the status of the Dereham Green Infrastructure Study and Implementation Strategy. It is the Council's preference that such matters be discussed during the hearing sessions and that any correspondence between officers and Mr Needham on such matters are only published where the Inspector considers this necessary to aid the discussion. Should the Inspector be minded to publish Mr Needham's emails, the Council requests that the response provided to Mr Needham regarding the issue is also published in the interest of fairness (see attached).

Regards,

Jemma
